EUR Swap Rate Indices

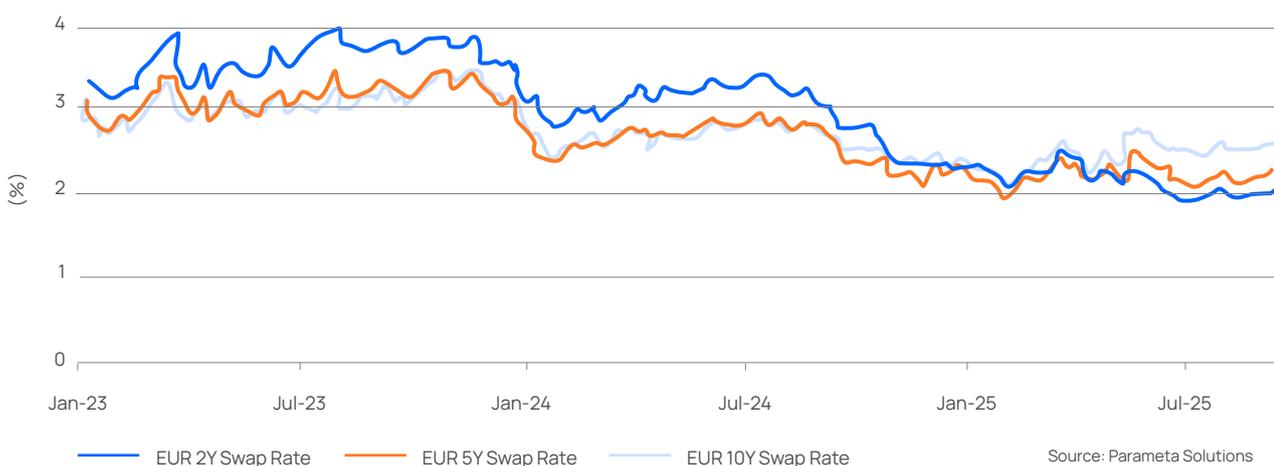

Index Description

The Parameta Solutions EUR Swap Rate indices provide market participants with daily measures representing the mid-rate of interest rate swaps across multiple tenors, calculated at a specific daily fixing time using tick-level indicative data sourced from ICAP.

Index Objective and Key Features

- The objective of the indices is to provide a transparent daily measure representing the mid-market rate calculated at 11:00 AM CET for standard swap tenors.
- Parameta's Swap Rate indices may be used for valuation, settlement of derivative contracts, benchmark construction, and risk management.
